4.1.2 Selection of Skaters for Division A

- a) In the *first Competition* the composition of Division A is determined by the final 2011/12 World Cup ranking for the distance category concerned and by the seeding of the entered competitors, as submitted by the respective team leaders before the opening draw (see paragraph 5.1). The 2011/12 World Cup ranking determines the quota places for the Member (subject to the entry quotas listed in paragraph 3.3.2, while the seeding submitted by the team leader determines which competitor will fill the respective quota places. This procedure applies also for the Mass start event.
- b) In *all other Competitions* (also for the first competition over 5000m Ladies and 10000m Men) the selection for Division A shall be based on the current World Cup ranks of the entered Skaters. However, in any case the following of the entered Skaters shall compete in Division A:
- i) Competitors placed among the 6 best, ties included, in Division A in the preceding Competition.
 - ii) Competitors promoted from Division B in the preceding Competition. Promotion is granted for competitors who finished among the 3 best (ties included) in Division B, with the following exceptions:
 - o From the first World Cup Competition promotion from Division B is granted for the 5 best competitors in the short distances (up to 1500 m) and in the Mass Start event, and for the 4 best competitors in the long distances (3000m Ladies, 5000m Men).
 - o When Division A will consist of only 12 competitors (5000m Ladies and 10000m Men), only the winner of Division B from the preceding competition will be granted promotion to Division A.
 - o From Competitions with two races over 500m or 1000m, the promotion of competitors (5 after the first World Cup competition, otherwise 3) for the next Competition will be based on a ranking where the winners of Division B races are ranked first, followed by skaters ranked according to their total of World Cup points from the Division B races. In case of a tie in total points, the competitor with the higher score of World Cup points from one race is considered as better ranked.
- c) Competitors with a "Wild card":
A Skater may use a "Wild card" for Division A only the first time the Skater competes in the distance (category) concerned in the World Cup 2012/13. A "Wild card" for Division A may be granted only if:
- o the Skater was placed among the 10 best in the final World Cup 2011/12 ranking or among the 10 best in the ISU World Single Distances Championships 2012 for the distance category concerned;
 - o for the Mass start event, if the Skater was placed among the 10 best in the final World Cup 2011/12 Mass start ranking or was among the 8 best ranked Skaters in the current Grand World Cup ranking after the preceding World Cup Competition.
- The request for a "Wild card" should be made when the Skater is entered for the Competition, and must be confirmed at the team leaders' meeting before the draw for the distance concerned. A "Wild Card" can neither be used in the first World Cup Competition of the season nor in the World Cup final.
- d) In World Cup Competitions with two races over 500m or 1000m, the winner will be promoted from Division B to Division A for the second race. Skaters (if any) who were not entered for the first race, but who would then have been selected for Division A due to their current World Cup ranks or a "Wild card", may be entered for Division A in the second race. All other entered competitors for the second race will start in Division B.

4.1.3 Scheduling of Division A races

4.1.4 Scheduling of Division B races

- a) The races of Division B should be skated on the same day as the races of Division A for the event concerned, before or after the Division A block. The time schedule for the races of Division B shall be announced at the team leaders' meeting.
- b) Quartet starts should be used for the long distances.

4.1.5 Entry and selection of Skaters for the last World Cup Competition ("World Cup final")

- c) “Wild Card” entries are not possible.
- d) If the actual number of entries will exceed 16 for the long distances (3000m /5000m) or 20 for any of the other individual events, the entered Skaters with the lowest World Cup ranking will not be admitted. However, winners of the last B division race will in any case be admitted among the 16 respectively, 20 competitors.

4.2 Competition format and racing rules for the Team Pursuit events

- 4.2.1 Team Pursuit races will be skated in accordance with Rule 261, paragraph 1, with national teams of 3 Skaters. Distances are 6 laps for Ladies and 8 laps for Men.

 - The final composition of the team shall be declared by the team leader not later than 30 minutes before the start of the Team Pursuit event concerned.

 - For the subsequent Competitions teams shall be ranked according to the current World Cup Team Pursuit ranking.

4.3 Competition format for the Mass Start events

Mass start races will be organized based on ISU Technical Rule 253, paragraph 4.b), and according to the “Mass start Racing rules” published on the ISU website or any further updates of these rules as issued by the ISU Speed Skating Technical Committee.

4.3.1 Basic competition format (details provided in attachment):

- Distances are 15 laps for Ladies and 20 laps for Men. Start in the middle of the finishing straight (at 1000m finishing line), finish at the end of the finishing straight.
- Competitors overtaken by the leader with one full lap will have to leave the racing track immediately when being overtaken.
- During the race there will be three (3) intermediate sprints and one final sprint. For each sprint, competitors will be awarded race points that count towards the final ranking of the race.
- The intermediate sprints will be decided at the finishing line after 4, 8 and 12 laps for Ladies, and after 5, 10 and 15 laps for Men.
- The ranking will be determined by the accumulated race points gained in the three intermediate sprints and at the final sprint. The race points awarded for the sprints are as follows:
 - Intermediate sprints: first four (4) Skaters will earn: 5 – 3 – 2 – 1 points
 - Final sprint: first six (6) Skaters will earn: 31 – 15 – 10 – 5 – 3 – 1 points
 - For competitors that do not finish the race, race points awarded from the intermediate sprints will not be considered for the final ranking.
- Race results are determined by the total of race points gained; and in such a way that the competitor who is first to cross the finishing line at the final sprint will be the winner of the race. For competitors with the same total of race points, the points gained in the final sprint will break the tie.
 - Competitors without race points will be ranked according to their position at the finish (order of finishing the final sprint).
 - Competitors being lapped (and therefore having not completed the race), will be ranked according to the order by which they have been lapped.
- Severe obstruction that causes the fall of another competitor leads to disqualification.
- Specially announced safety measures (including compulsory safety gear) will apply.

4.3.2 World Cup points

World Cup points and Grand World Cup points are awarded based on the final race results, according to the points scoring tables listed in paragraph 6.

4.4 Demonstration events

With the consent of the ISU World Cup Coordinator and the ISU Speed Skating Technical Committee, the organizer of a World Cup Competition may include demonstration events.

4.4.1 Team Sprint demonstration event.

Team Sprint races over 3 laps are planned as demonstration events as listed in the Competition calendar, paragraph 3. The event will be organized according to racing rules for “Team Sprint Demonstration Event” as published on the ISU website, or any further updates of these rules as issued by the ISU Speed Skating Technical Committee.

5. Drawing, Composition of pairs and starting order, issuing of start lists

A team leaders’ meeting shall take place before each day of the Competition, with the purpose to confirm the final entries and to present race schedules and other logistic information.

Before the first day of a World Cup Competition there will be an opening draw meeting to draw or to announce the composition and starting order of pairs for the first competition day. On subsequent days the start lists for the following day will be determined by the Referee based on the entries confirmed at the team leaders’ meeting and the rules given below. At the first World Cup competition of the season, however, a draw meeting will be held following the team leaders’ meeting before each day of competition.

Each participating Member is obliged to attend the team leaders’ meeting, but participation is restricted to one person (the officially entered team leader or another person authorized by the team leader).

5.1 *Drawing at the first World Cup Competition for individual distances*

5.1.1 The entered competitors shall be placed in 10 (ten) groups. Group 1-9 will have 4 competitors each. Remaining competitors shall be placed in Group 10.

5.1.2 Respecting the entry quotas given in paragraph 3.3 above, the number of competitors for an ISU Member in Group 1 corresponds to the number of Skaters from this Member among the 4 best in the final World Cup ranking 2011/12, and similarly for Groups 2 through 9.

5.1.3 *Before noon (12:00)* on the day of the Opening draw meeting for the Competition the team leaders must submit to the Referee a seeding of their entered competitors, by order of quality, *for all distances* to be skated in the Competition. The Referee then places the competitors in the respective groups, considering that Group 1 shall include the Skaters of highest quality.

5.1.4 For the short distances (500m, 1000m and 1500m) Division A shall consist of the competitors placed into Groups 1 through 5; for the long distances (3000m/5000m) Division A shall consist of the competitors placed into Groups 1 through 4. Division B shall consist of the remaining competitors. Adjustments will be made in case of exceptional number of competitors in Division A as per paragraph 4.1. For the second race over 500m, see subparagraph 5.2.2 below.

5.1.5 Pairs are drawn within each group. The pairs of Group 10 shall be drawn first, then the pairs of Group 9, etc. The two last drawn competitors from Group 1 will form the last pair of Division A. In the case of an odd number of competitors, the first pair will consist of a single Skater.

5.1.6 In case of withdrawals after the draw meeting, a withdrawn competitor shall be replaced in the pair by the next ranked of the entered skater or substitute (according to the seeding submitted by the team leader) from the ISU Member concerned, etc. If no substitute is available, and the consequence is that less than 4 competitors remain in a group the competitor with the highest rank from the next group will be moved to complete the pair, etc. Further rearrangements may be done according to Rule 245.

5.1.7 For the first Competition in 5000m Ladies and 10000m Men the drawing shall be made according to subparagraph 5.2.1, based on the current *extended World Cup ranking* in the long distances.

5.2 *Pairing and drawing after the first World Cup Competition for each distance*

5.2.1 Competitors, both in Division A and in Division B, shall be paired according to their individual World Cup rank. An *extended World Cup ranking* is established by ranking competitors with no World Cup points according to their best achieved time in World Cup races during the season 2012/13. Competitors with no results from World Cup races held during the season shall be *ranked thereafter, based on* their best achieved qualifying time. The starting order of the pairs shall be opposite to the ranking order of the competitors – so that the competitors with the highest ranks will start in the last pair, and so on. The better ranked competitor in a pair shall start in the inner lane. Exceptions apply for the second 500m or 1000m race, see 5.2.2 below.

5.2.2 For the second 500m or 1000m race in a World Cup Competition, the composition of pairs in each Division shall be based on the time ranking from the first race, so that the competitors with the best time from the first race will start in the last pair. Competitors, who did not participate or did not get a result in the first race, shall start first, with their internal rank determined according to subparagraph 5.2.1 above.

- In case of ties in the time rankings used for the composition of pairs in the second race, the competitor with the better current World Cup rank shall be considered better ranked;
- The composition of pairs must take into account that the competitors shall change their starting lanes from the first race. Skaters not competing in the first race may be assigned starting lanes in order to avoid odd pairs;
- If the start list (after rearrangements following withdrawals after the draw, see subparagraph 5.2.4 below), would include several single pairs, such pairs shall be merged by moving the competitor from the preceding pair to the last of the single pairs. The moved competitor shall start in the outer lane of the merged pair. The procedure is to be repeated until maximum one single pair remains.

5.2.3 In the case of an odd number of competitors, the first pair shall consist of a single Skater.

5.2.4 In case of withdrawals after the draw, pairs shall be rearranged according to Rule 245. Substitutes shall be placed in the Division and the pair corresponding to their individual World Cup rank, and necessary rearrangements must be made accordingly. However, for withdrawals announced later than two hours before the start of the distance and Division concerned, adjustment of pairs may be made according to Rule 245, paragraph 3.

5.3 *Composition of quartets*

In the case of quartet starts the four competitors with the best World Cup ranking shall form the last quartet, and only the first quartet may be incomplete.

6. Points and ranking system for the World Cup and the Grand World Cup rankings

6.1 *Points scoring tables*

a) World Cup points

Based on the results of Division A and Division B, World Cup points are awarded according to the points tables below. Tables A1, A2 or A3 are used for Division A, and tables B1 and B2 for Division B.

b) Grand World Cup points

A special ranking is established to determine an overall World Cup winner (“Grand World Cup winner 2012/13”), both for Ladies and for Men. For each competition in individual distances the top 5 ranked competitors will earn “Grand World Cup points”, based on the World Cup points table above, as follows:

Rank	Competitions before the World Cup final	World Cup final
1	10 (5,0)	15 (7,5)
2	8 (4,0)	12 (6,0)
3	7 (3,5)	10,5 (5,25)
4	6 (3,0)	9 (4,5)
5	5 (2,5)	7,5 (3,75)

The points in brackets are awarded for each 500m race and for each 1000m race in Competitions where these distances will be skated twice.

6.2 Points for tied ranks

If two or more Skaters (or teams) have obtained the same rank in the classification, each Skater (or team) will receive the full points score for this tied rank.

7. World Cup Speed Skating ranking rules

7.1 World Cup rankings for each category

The World Cup ranking for each category is determined by the number of points the Skaters (or national pursuit teams) accumulate during the season. In the final World Cup ranking, as well as in the intermediate ranking during the season, a tie between Skaters/teams with the same total of World Cup points will be resolved according to the following criteria (in order of priority) for determining the better ranked Skater/team:

- i) The Skater/team with the higher number of World Cup victories;
- ii) The Skater/team with the higher score of points in one single competition (race);
- iii) The Skater/team with the higher score of points in the latest competition (race) held.

If neither of these criteria resolves the tie, the Skaters (teams) shall have the same World Cup rank.

7.2 Grand World Cup ranking rules (to determine the overall World Cup winner)

For the Grand World Cup ranking a tie between Skaters with the same number of “Grand World Cup points” (as defined above) will be resolved according to the following criteria (in order of priority) for determining the better ranked Skater:

- i) The Skater with the higher number of World Cup victories;
- ii) The Skater with the higher total of Grand World Cup points in the latest Competition held;
- iii) The Skater with the higher number of races where Grand World Cup points have been scored.

8. Prizes

For each distance (category) prize money will be awarded for each individual competition and for the final classification at the end of the season. For each competition prize money is awarded to the top 3 Skaters of Division A and the top 3 pursuit teams. For the final World Cup ranking prize money is awarded to the top 10 Skaters in each of the individual distance categories, to the top 5 Skaters in the Mass start event, and to the top 5 ranked teams in the Team Pursuit events.

The prize money for the final rankings is transferred from the ISU to the respective ISU Members on the same conditions that apply for ISU Championships (see ISU Communication No. 1509 or later updates). Payment of prize money for each individual competition is handled by the organizer.

9. Cancellation of Competitions
